

40V Max Brushless Scrubber

HEAVY DUTY BRUSHLESS

**200mm
SCRUBBING WIDTH**

Product Statement

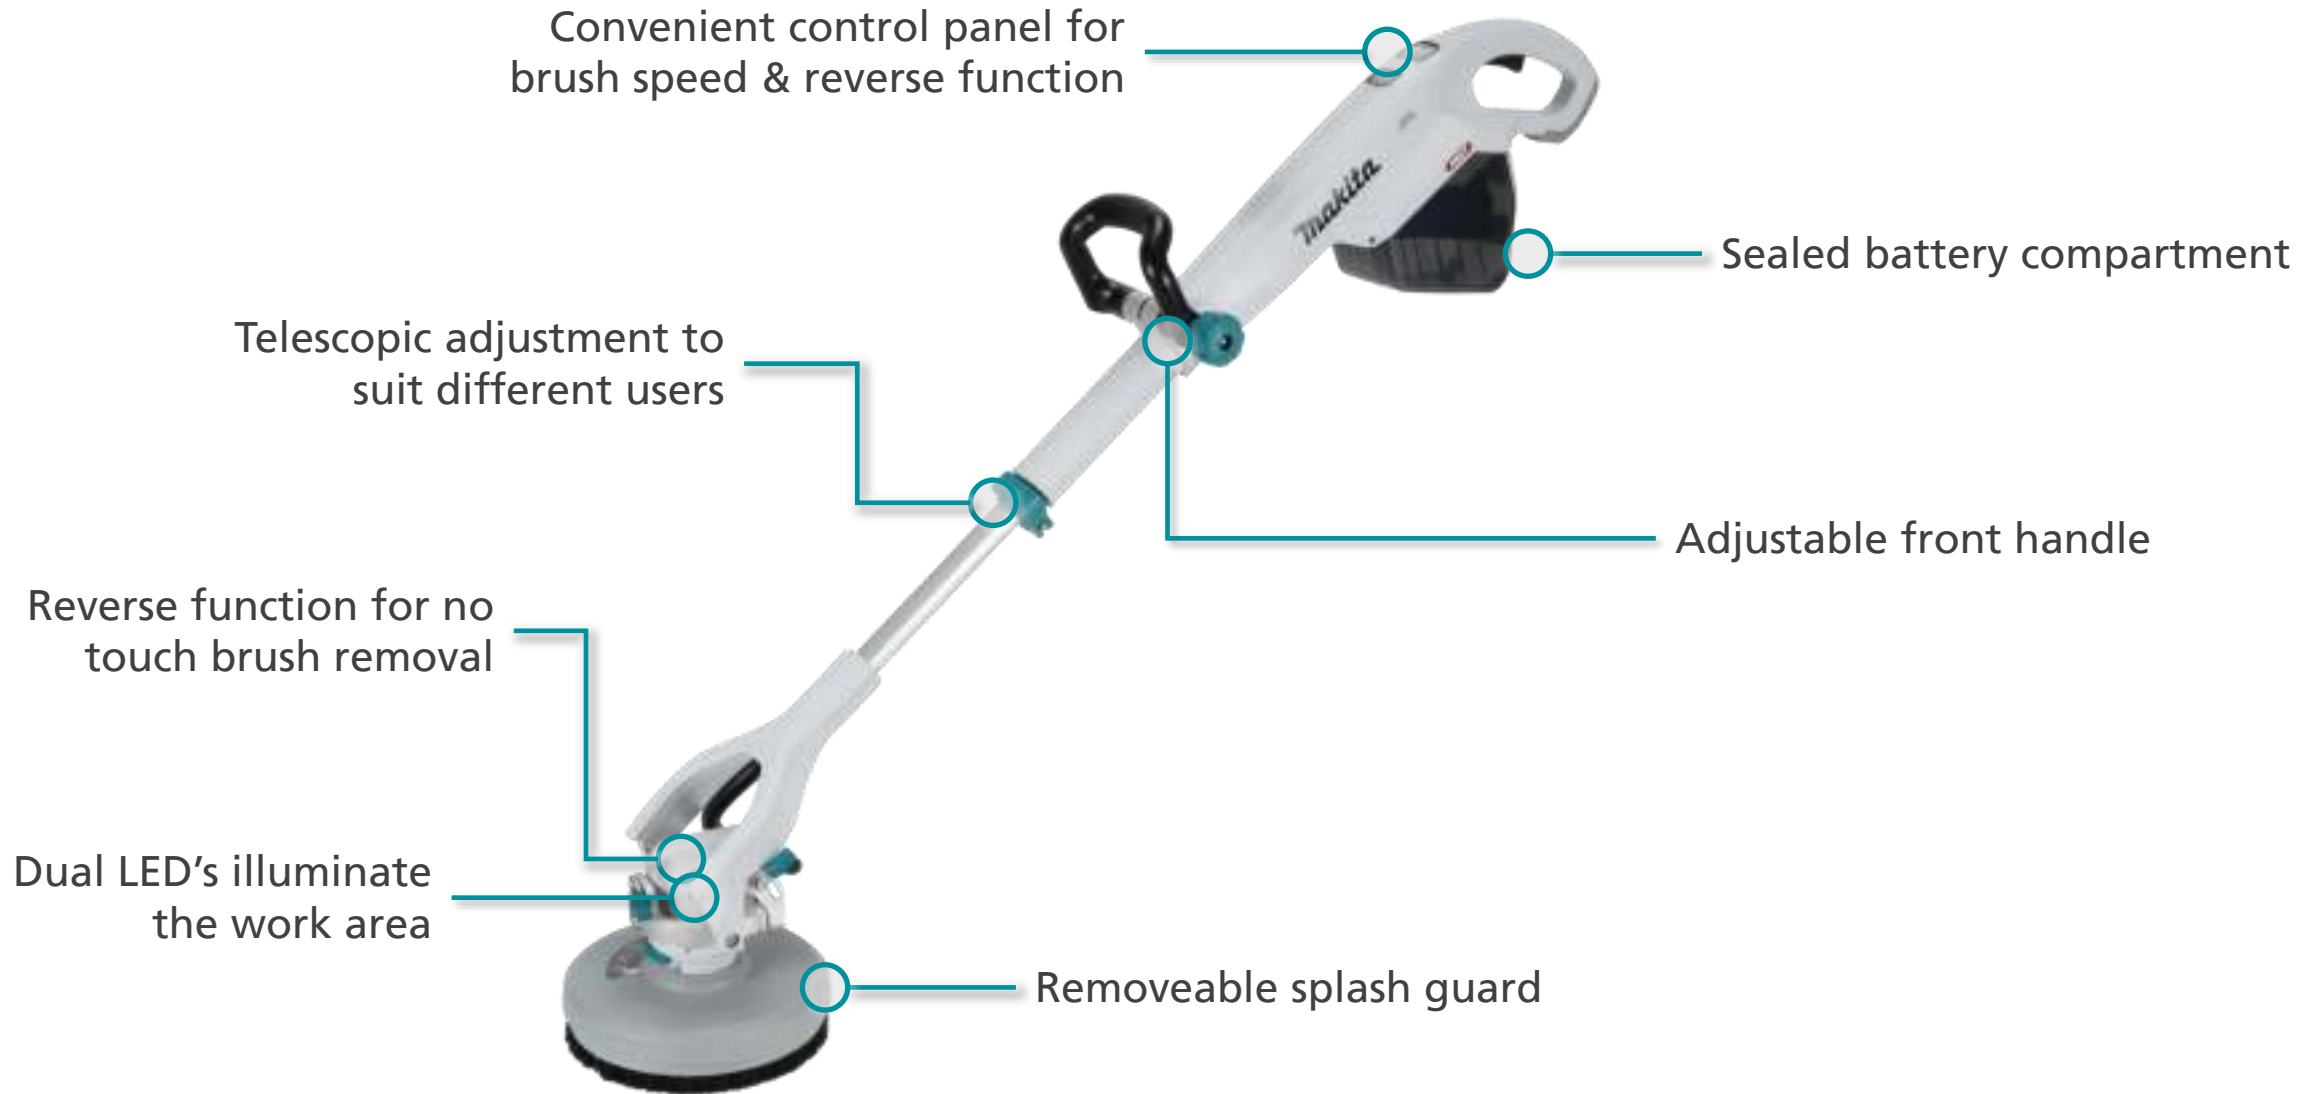

Makita's NEW 40V Max Brushless Scrubber replaces manual scrubbing to ensure maximum efficiency during cleaning. The brush rotates up to 600rpm to loosen dirt and grime to be picked up with a mop or wet/dry vacuum.

The reverse function allows the user to replace the brushes or pad holder without the need for touching it and the removeable splash guard requires no tools to be taken off. It also allows the brush to get right up to a vertical edge for maximum cleaning potential.

3 Stage speed control provides max rpm of 150, 350 or 600rpm to suit different applications and dirt removal requirements. Optional accessories include soft and hard brushes, and an abrasive brush for perfect for grout restoration.

Product Overview

Product Specifications

| SPECIFICATIONS | |
|---------------------------|--------------------------------------|
| No load speed (rpm) | High - 600 Med - 350 Low - 150 |
| Brush size | 190mm |
| Pad size | 200mm |
| Continuous runtime (High) | 48 minutes (BL4040) |
| Telescopic range | 354mm |
| Head height | 189mm |
| Skin weight | 3.7kg |
| Weight (with battery) | 4.7kg (BL4040) |
| Voltage | 40V Max |

- **3 Stage Speed Control** – provides optimum performance & runtime for a wide range of applications.
- **Reverse Function** – Allows the user to change between brushes without the need for tools or to touch the brush or pad holder.
- **Adjustable Front Handle** – can be moved forward or backwards and rotates to both sides to accommodate different user preferences.
- **Telescopic Pipe** – extends out 354mm to suit users of different heights and increase overall reach of unit.
- **Removeable Splash Guard** – allows the brush or pad to clean right up to a vertical surface.
- **Constant Speed Control** – maintains speed under heavy load to improve efficiency through tough applications.
- **Dual LED Lights** – illuminate work area to maintain high visibility in dark areas.

Performance

Constant speed control ensures maximum RPM is maintained under pressure

Convenience

Removeable splash guard and reverse function for hands free brush replacement

Functionality

Low head height of 189mm to get under furniture and other obstacles

Versatility

Adjustable front handle to suit different users and applications

Convenience

The PS001G has a reverse function which allows the user to remove brushes without needing to touch the brush.

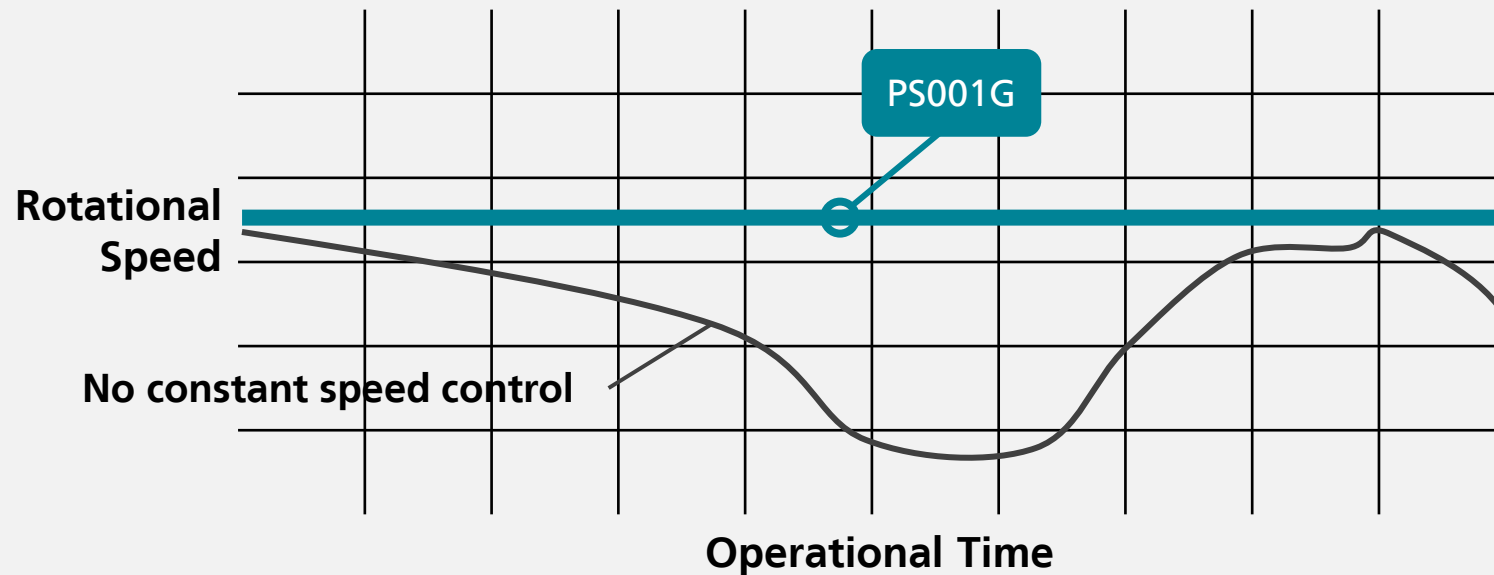

The reverse function operates for 1 second to loosen the brush and allow it to drop off the unit.

The user simply puts the unit back into forward and places it on the new brush and pulls the trigger to secure the new brush onto the drive assembly.

Efficiency

Makita's constant speed control technology automatically increases the current from the battery under heavy loads to maintain require RPM, ensuring optimum efficiency and smooth operation.

Ergonomics

The PS001G has 2 lockable gimbals which allow the user to tilt the brush to clean vertical surfaces or get into narrow spaces.

Keeping the mechanism unlocked helps maintain stability of the brush during operation to increase consistency of pressure on the surface.

Comfort

The PS001G features a telescopic pipe to extend out 354mm to allow for taller users or provide a wider area to cover during operation.

The front handle can also be adjusted forward and back, as well as being rotated left and right to ensure the best position for any application.

Safety

Twin LED's are located on the head to illuminate the work area, providing visibility of the even in dark areas and helping to ensure user safety.

| Standard Accessories | | |
|---|----------|-----------------|
|  | 1914T1-4 | Medium Brush |
|  | 1914S4-1 | Pad Holder |
|  | 1914S5-9 | Floor Pad White |
|  | 1914S6-7 | Floor Pad Red |
|  | 1914S7-5 | Floor Pad Blue |
|  | 1915D1-8 | Accessory Bag |

| Optional Accessories | | |
|---|----------|-----------------|
|  | 1914T0-6 | Soft Brush |
|  | 1914T2-2 | Hard Brush |
|  | 1914T3-0 | Abrasive Brush |
|  | 1914S8-3 | Floor Pad Brown |
|  | 1914S9-1 | Floor Pad Black |
